It's ok everyone, terrorists are not the real Muslims, but who gets to decide who are the real Muslims actually? the Sunnis or the Shias? The Salafists or the Wahabbis? the reformists or the hardliners? Cuz i'm pretty sure that if you asked them they would all say that they are real Muslims. Same for Christians & other religions too

Everyone has a different idea of what a religion is & what its principles should be. So, just stop calling yourself a Muslim, Christian, Hindu etc. They're over generalized terms which do not mean anything in today's time. Your actual faith is unique, personal and yours only.

Can Inellioglu The reason why these Muslims are prone to self-detonation has everything to do with Quran and Islam. It is the ideology that promotes martyrdom by promising paradise to those who lose their lives for Allah. Violence is sanctioned by the Quran, a book which not once tells Muslims to love those outside the faith.
